

## HANDS-ON WORKSHOPS / WORKSTATIONS

Workstation 1: \_\_\_\_\_  
Endoscopic resection and ablative techniques EMR, ESD with HybridKnife, etc.

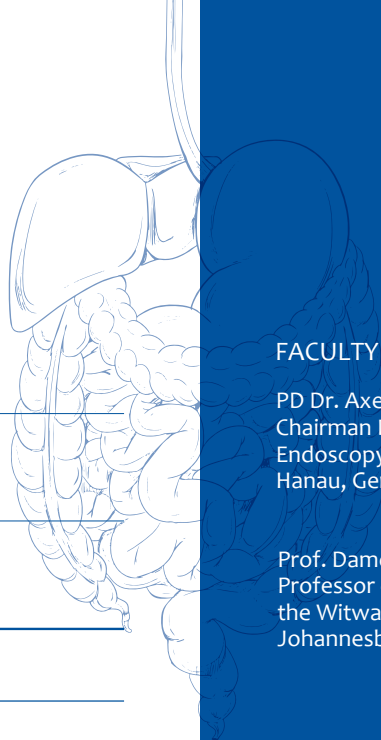

Workstation 2: \_\_\_\_\_  
Endoscopic resection and ablative techniques EMR, ESD with HybridKnife etc.

Workstation 3: \_\_\_\_\_  
Polypectomy, APC etc..

Workstation 4: \_\_\_\_\_  
Bleeding and hemostasis  
Injection, Clip, Loop, APC, Powder, etc.

### MAXIMUM 20 PARTICIPANTS

## DEAR COLLEAGUES IN INTERVENTIONAL ENDOSCOPY AND GASTROENTEROLOGY

It is our great pleasure to invite you to Johannesburg for the 6<sup>th</sup> G-MEA workshop about innovative methods in gastrointestinal endoscopy. G-MEA stands for Gastrointestinal Workshop association Middle-East and Africa and it expresses a new concept of an educational forum for endoscopy and, also, the evolving field of gastroenterology. The spirit of this innovative approach to education is best reflected by the fact that this meeting will combine workshops on bio-tissue models, as well as scientific sessions.

The field of modern endoscopy is rapidly evolving and new developments and key advances, such as virtual chromoendoscopy, confocal lasermicroscopy, endoscopic submucosal dissection, bleeding management and argon plasmacoagulation have been achieved. The ability to train on bio-tissues models and apply these new techniques to clinical practice is the primary goal of this workshop. It is the kick-off meeting for G-MEA accompanied workshops for 2013, and will continue with ongoing meetings throughout this year in the Middle East region.

To meet the goal and aims of G-MEA, workshops will focus on hands-on courses on resection techniques (EMR, ESD) and new imaging modalities (Scan, Laserscan). Together with our partners from the industry we are committed to providing high quality education and training for all participants. Trained by professional experts in their field, you will have the exclusive opportunity to learn and be taught innovative techniques of gastrointestinal endoscopy, and to see established methods from a perspective you have never experienced before. The courses are accredited by the Lebanese German Societies and under patronage of the ESGE.

G-MEA seminars and workshops offer an experience which covers the whole of modern gastrointestinal endoscopy in an exciting social environment, designed to extend our knowledge, improve our practice and widen our friendships.

Welcome to Johannesburg!

### Friday 29/11/2013

09:00	Welcoming
09:15	Endoscopic resections: basics of ESD/EMR
09:45	Indications of ESD and EMR
10:15	Coffee break
10:45	ESD with Water Jet
11:15	ESD vs. EMR, pro and contra
12:00	Lunch
12:30	Demonstration and Hands on course
16:30	End of 1st day

### Saturday 30/11/2013

09:00	Welcoming
09:30	Principle of HF-surgery, settings ERBE VIO, APC
10:00	Hands-on course
12:00	Time for questions
12:15	Lunch
13:00	End of the Workshop
