

## HANDS-ON WORKSHOPS / WORKSTATIONS

**Workstation 1:**  
Endoscopic submucosal dissection  
with ERBE HybridKnife and Barrett ablation with  
ERBE HybridAPC

**Workstation 2:**  
Endoscopic submucosal dissection  
with PENTAX Splashneedle

**Workstation 3:**  
Endoscopic resection and ablative techniques  
EMR, Polypectomy, Stenting

**Workstation 4:**  
Bleeding and hemostasis  
Injection, Clip, Loop, APC, COOK Hemospray

FOR REGISTRATION:  
[www.G-MEA.com](http://www.G-MEA.com)

MAXIMUM 20 PARTICIPANTS

For registration or more information,  
please contact:  
Email: [info@g-mea.com](mailto:info@g-mea.com)

## FACULTY IN ALPHABETICAL ORDER

Dr. Riad Azar  
Head of GI Department at University Hospital Rizk  
Medical Center Beirut, Lebanon

Dr. Mostafa Ibrahim  
Dept. of Gastroenterology and  
Hepatopancreatology Erasme Hospital Université  
Libre de Bruxelles Brussels, Belgium

Dr. Elie Makhoul  
Head of GI Department at NDDS University Hospital  
of USEK Byblos, Lebanon

Dr. Charbel Yazbek  
GI Department at NDDS University Hospital of  
USEK Byblos, Lebanon

Prof. Dr. Alessandro Zambelli  
Head of Digestive Endoscopy Nuovo Robbiani  
Soresina  
Responsible for Endoscopic Training at  
Ospedale Maggiore di Crema, Italy

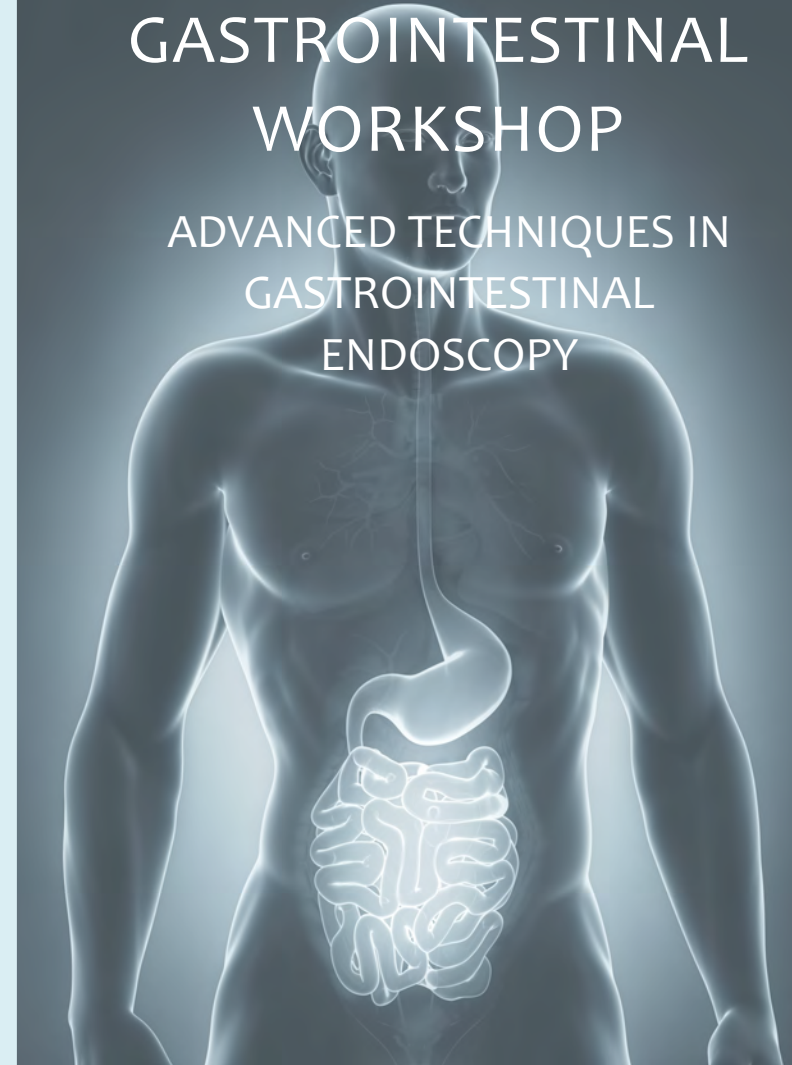

WITH KIND SUPPORT:

# GASTROINTESTINAL WORKSHOP

## ADVANCED TECHNIQUES IN GASTROINTESTINAL ENDOSCOPY

29/30 August 2014

Please send application or registration to:  
[info@g-mea.com](mailto:info@g-mea.com)

## DEAR COLLEAGUES IN INTERVENTIONAL ENDOSCOPY AND GASTROENTEROLOGY

It is our great pleasure to invite you to Lebanon for our G-MEA workshop about innovative methods in gastrointestinal endoscopy.

The spirit of this innovative approach to education is best reflected by the fact that this meeting will combine workshops on bio-tissue models, as well as scientific sessions.

The field of modern endoscopy is rapidly evolving and new developments and key advances, such as virtual chromoendoscopy, confocal lasermicroscopy, endoscopic submucosal dissection, bleeding management and argon plasmacoagulation have been achieved. The ability to train on bio-tissues models and apply these new techniques to clinical practice is the primary goal of this workshop. This workshop will focus on hands-on courses on resection techniques (EMR, ESD) and new imaging modalities (Scan, Laserscan). Together with our partners from the industry we are committed to providing high quality education and training for all participants. Trained by professional experts in their field, you will have the exclusive opportunity to learn and be taught innovative techniques of gastrointestinal endoscopy, and to see established methods from a perspective you have never experienced before.

The G-MEA course is accredited by the Lebanese German Societies and under patronage of the ESGE. This workshop will offer an experience which covers the whole of modern gastrointestinal endoscopy in an exciting social environment, designed to extend our knowledge, improve our practice and widen our friendships.

Welcome to Lebanon!

### Friday 29/08/2014

- 09:00 Welcoming  
G-MEA
- 09:15 Different resection techniques  
Prof. Alessandro Zambelli
- 09:45 Acute bleeding management - Are we good?  
Dr. Mostafa Ibrahim
- 10:15 Coffee break
- 10:45 Cannulation techniques  
Dr. Riad Azar
- 11:15 Open discussion and theoretical preparation  
for hands-on course
- 11:30 Hands on session 1
- 13:00 Lunch
- 13:30 Hands on session 2
- 15:00 Hands on session 3
- 16:30 End of 1<sup>st</sup> day

### Saturday 30/08/2014

- 09:00 Biliary stenting: Do we have the best stent?  
Dr. Mostafa Ibrahim
- 09:30 Different APC modes in the GI tract  
Dr. Elie Makhoul
- 10:00 APC complications  
Prof. Alessandro Zambelli
- 10:30 Open discussion
- 10:45 Coffee break
- 11:00 Hands on session 1
- 12:30 Lunch
- 13:00 Hands on session 2
- 14:30 Hands on session 3
- 16:00 Certificate
- 16:15 End of the workshop
