10th Hepato-Gastroenterology & Endoscopy Workshop

Dear Friends & Colleagues,

It gives me a great pleasure to invite you to Cairo University 10th Hepato-Gastroenterology & Endoscopy course organized by El-Ebrashi Unit, Internal Medicine Department, Faculty of Medicine, Cairo University. This year we changed a lot of our regular course to meet the continuous needs of both the expert gastroenterologist and the trainee. Let me give you an overview of what are you going to see in the coming meeting.

The course will be a 2 days event with lectures and endoscopy live transmission. However, you will enjoy this year experts hands on training on animal models for various endoscopic techniques. A valuable prize will be awarded to the highest score. A similar interactive liver quiz will be provided by hepatology experts.

In a nutshell you will always find what you are looking for. We would like you to enjoy learning and most of all to have a chance to meet your old friends and make new ones.
