

## HANDS-ON WORKSHOPS / WORKSTATIONS

Workstation 1: \_\_\_\_\_  
POEM, Barrett Esophagus, ESD with Hybridknife

Workstation 2: \_\_\_\_\_  
Endoscopic resection and ablative techniques EMR, Stenting,

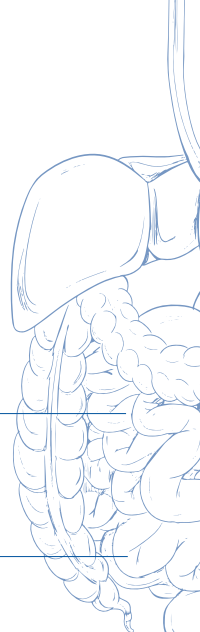

Workstation 3: \_\_\_\_\_  
Colonoscopy and adjunctive techniques Polypectomy, stenting

Workstation 4: \_\_\_\_\_  
Bleeding and hemostasis Injection, Clip, Loop, APC, Hemospray

FOR REGISTRATION:  
[www.G-MEA.com](http://www.G-MEA.com)

### MAXIMUM 20 PARTICIPANTS

For registration or more information, please contact: Phone: +961 9 644 777  
Fax: +961 9 644 254  
Email: [info@g-mea.com](mailto:info@g-mea.com)

## FACULTY

Dr. Riad Azar  
Head of GI Department at University Hospital Rizk Medical Center Beirut, Lebanon

Dr. Elie Makhoul  
Head of GI Department at NDDS University Hospital of USEK Byblos, Lebanon

Dr. Ibrahim Mostafa  
Dept. of Gastroenterology and Hepatopancreatology Erasme Hospital  
Université Libre de Bruxelles  
Brussels, Belgium

Prof. Dr. Raymond Sayegh  
Head of GI Department at University Hospital Hotel Dieu Beirut, Lebanon

Prof. Dr. Alessandro Zambelli  
Head of Digestive Endoscopy Nuovo Robbiani Soresina  
Responsible for Endoscopic Training at Ospedale Maggiore di Crema, Italy

Dr. Charbel Yazbek  
GI Department at NDDS University Hospital of USEK Byblos, Lebanon

WITH KIND SUPPORT:

# GASTROINTESTINAL WORKSHOP ADVANCED TECHNIQUES IN GASTROINTESTINAL ENDOSCOPY

## 29/30 August 2014

Please send application or registration to:  
[info@g-mea.com](mailto:info@g-mea.com)

## DEAR COLLEAGUES IN INTERVENTIONAL ENDOSCOPY AND GASTROENTEROLOGY

It is our great pleasure to invite you to Lebanon for our G-MEA workshop about innovative methods in gastrointestinal endoscopy.

The spirit of this innovative approach to education is best reflected by the fact that this meeting will combine workshops on bio-tissue models, as well as scientific sessions.

The field of modern endoscopy is rapidly evolving and new developments and key advances, such as virtual chromoendoscopy, confocal laser microscopy, endoscopic submucosal dissection, bleeding management and argon plasma coagulation have been achieved. The ability to train on bio-tissues models and apply these new techniques to clinical practice is the primary goal of this workshop. This workshop will focus on hands-on courses on resection techniques (EMR, ESD) and new imaging modalities (Scan, Laserscan). Together with our partners from the industry we are committed to providing high quality education and training for all participants. Trained by professional experts in their field, you will have the exclusive opportunity to learn and be taught innovative techniques of gastrointestinal endoscopy, and to see established methods from a perspective you have never experienced before.

The G-MEA course is accredited by the Lebanese German Societies and under patronage of the ESGE. This workshop will offer an experience which covers the whole of modern gastrointestinal endoscopy in an exciting social environment, designed to extend our knowledge, improve our practice and widen our friendships.

Welcome to Lebanon!

### Friday 29/08/2014

- 09:00 Welcoming  
G-MEA
- 09:15 Different resection techniques  
Dr. Ibrahim Mostafa
- 09:45 Submucosal Resection: ESD and/or Mucosectomy  
Prof. Zambelli
- 10:15 Coffee break
- 10:45 Cannulation techniques  
Dr. Riad Azar
- 11:15 Open discussion and theoretical preparation  
for hands-on course
- 11:30 Hands on session 1
- 13:00 Lunch
- 13:30 Hands on session 2
- 15:00 Hands on session 3
- 16:30 End of 1<sup>st</sup> day

### Saturday 30/08/2014

- 09:00 ERCP update  
Dr. Elie Makhoul
- 09:30 Different APC modes in the GI tract  
Dr. Raymond Sayegh
- 10:00 APC complications  
Prof. Zambelli
- 10:30 Open discussion
- 10:45 Coffee break
- 11:00 Hands on session 1
- 12:30 Lunch
- 13:00 Hands on session 2
- 14:30 Hands on session 3
- 16:00 Certificate
- 16:15 End of the workshop
