**Hands-on Workshop**

**June 2016**

G-MEA, is delighted to invite you to our Urology Hands-on Workshop, to be held on June, 25<sup>th</sup> 2016 in Lebanon at G-MEA Center in Byblos, Lebanon

Dear Colleagues,

Laparoscopic Urology Surgeries will be performed for the first time on living animals at G-MEA training center in Jbeil, Lebanon.

Using advanced surgical techniques, Laparoscopic Nephrectomy (partial and total) will be simulated on living animals; the operative procedure will be performed following the guidelines & covering all steps.

Furthermore, the Workshop will offer additional stations where Laparoscopic exercises can be performed using the live animal tissue simulator & 2 Endoscopic Urology Stations where doctors can perform transurethral resection of bladder tumors.

Several advanced instrumentations will be used in the procedures where Vessel Sealing, Bipolar Resection, Robotic Assistant and Water Jet techniques are to be used throughout the workshop.

We look forward to welcome you in Lebanon.

This course will be held on an **ADVANCED LEVEL**.

For your registration kindly send an email to: [info@g-mea.com](mailto:info@g-mea.com)
